

Feedback: Artefact presentation – MSc Cyber Security Project – Michael Geiger

Michael presented an excellent summary of what he discovered during his research.

Michael demonstrated an in-depth understanding of the topic, illustrated by his experiments.

Michael's slides were well-designed with excellent content, and he explained them in great detail.

Not all the critical elements covered in his dissertation came out in the presentation, but there was good coverage nonetheless.

As with the dissertation, Michael provided an excellent set of references – including an innovative set of hyperlinks to provide readers with more information.

Michael's slides were excellently structured and well presented, with copious evidence of proofreading and checking.
