Thank you for summiting your formative for the 'stats' exercise.

The content of your formative is very precise and concise. You have split the questions down effectively, and there has been a clear step wise approach to you solving the problems that the formative posed.

You have broken the formative down logically reflecting the statistics from the required formative exercises and have also completed the required work to reflect statistics in bar chart form.

Overall, a very thorough outcome, which will be a useful addition to your e-portfolio
